Double Assessment on Property. Editor of The Times-Dispatch: Sir.-I attach herewith, a clipping from your issue of December 25th:

"SELL LANDS FOR TAXES.

"Chance to Buy Real Estate Bargains to Be Given Soon.

"Treasurer Hechler, of Henrico county, will but up 1.70e lots at public auction on January 2, 1997, and sell chem for what they will bring, unless the taxes are paid this week.

"On some of the lots there are due only sew chilars; but they will have to go

The some of the lots there are use only few dollars; but they will have to go wertheless. On the others much more due, and they must go likewise, unless t taxes are paid. The aggregate value the lots is between \$150,000 and \$200,000."

From its reading one concludes that the facts as published are true, and the tax-mayers in the county are behind in the payment of their dues to the extent of the reperty valued in \$150,000, or \$200,000, or \$100,000, or \$100,0

very large number of properties are publy taxed, which gives the county a false asset. For example, years ago, A sold B n lot or farm: the assessor charges the property to B, you most likely, upon examination, will find the property taxed to both A and B.

to both A and B.

The fact is, so many of these cases exist, that it should be incumbent upon the powers that he, to restore order out of chaos. This, of course, would require the services of an expert to go over the books thoroughly and bring the court's attention te existing conditions; by this means, you could then arrive at a true state of affairs, and if the same time relieve owners of property from unnecessary burdens.

relieve owners of property from unnecessary burdens.

We have recently had three cases, in other words, made three sales in the county, and in each case, the properties were doubly assessed; the three sales amounted to only \$1,29; yet to \$\mathbb{q}\$ these matters righted so as to pass a proper title, the cost in each case was \$25, cr \$15 extra fees involving only \$1,350.

The "land grabbers" have been at wors for years, and maturally have closely watched every means by which they could acquire lands, and as far as I am advised; they fight shy of double assessments. Lastly, I have known of a few cases in which the double tax was puld; in other words, the parties in interest submitted to the hold up, so as to save delay, and the expense of a lawyer.

Now as we are on the eve of a New Year, which I hope will bring joy and prosperity to all, why not begin, and clear the deck of the detris herein mentioned.

Yours very truly, EDWARD S. ROSE.

People Seen in Public Places

"I have just returned from a little Christmas vacation at my home in Sperryville, Rappahannock county," said Mr. Charles Green Brown, at Murphy's, last night, 'and from all I could gather from my visitations, both in Rappahannock and Culpeper, Mr. H. A. Wood, of the former county, will be the next Senator from the Fifteenth District, to succeed Colonel Gco. S. Stackelford, of Orange.

"I have seen the references to the candidacy of Judge Jeffries, and while he is a good man. I do not think he can come anywhere near overcoming the great strength of Mr. Wood, who is quite as well known in Culpeper as he is in his own, county.
